

I am writing in regard to keeping Air1 90.1FM radio station on the air. In my community there are few radio stations that I can allow my children (all under 10 yrs of age) to listen to. If you make LPFM a requirement, I will lose that option because Air1 will not be able to afford to stay on the air. Air1 has been an outreach to our community and you will often hear the middle and high school students comment on how much they have been effected by the positive messages Air1 plays. Without Air1 the kids will only be left with stations encouraging violence and much sexual promiscuity. Please to not leave our future in the hands of such disgust. I believe that options giving LPFM priority over other FM stations will is unfair and I am pleading with you to not allow this to happen. Thank you for your time.
